

Make a Mini Museum

If you had a miniature museum in a shed, what would you put in it? You can use some of Den's items and add your own.

Colour in the shed and cut it out. On the inside you could draw or glue the exhibits in your museum.

If you can print this in A3 then it'll make your shed bigger, or you could scale it up by hand – just double the dimensions.

Cut ———
Fold
Glue [shaded area]

To see an animation of Den's story visit bit.ly/DenByBen to find out more!

Cut open and fold the door so you can see inside the shed!

Perhaps your shed has a sign outside?
